- 1** Access control: First experiences using XACML for access control in distributed systems 77%

Markus Lorch , Seth Proctor , Rebekah Lepro , Dennis Kafura , Sumit Shah

**Proceedings of the 2003 ACM workshop on XML security** October 2003

Authorization systems today are increasingly complex. They span domains of administration, rely on many different authentication sources, and manage permissions that can be as complex as the system itself. Worse still, while there are many standards that define authentication mechanisms, the standards that address authorization are less well defined and tend to work only within homogeneous systems. This paper presents XACML, a standard access control language, as one component of a distributed a ...
